## PROJECTS

- **Figma project (Campus Compass)**

1. Designed a mobile app UI in Figma for a social discovery platform with floating profile bubbles, allowing users to explore people visually and move through clean, minimal screens like home, profile, and chat.
2. Built an interactive prototype using Figma's frames and click-based navigation, organizing reusable components (avatars, buttons, cards) to simulate the user flow of discovering profiles and starting conversations.

- **Portfolio Website**

1. Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills with a clean, user-friendly UI.

2. Implemented interactive components and optimized layout for mobile and desktop, improving portability and performance.
